

Cessna Citation CJ2+

Light private jet.

The Citation CJ2+ is a high-performing light jet built for efficient regional travel. With seating for up to 6 passengers in a quiet, pressurized cabin, it offers the ideal environment for focused work or uninterrupted rest on short-haul routes.

Its excellent short-field capabilities allow access to airports closer to the final destination, reducing total travel time and increasing scheduling flexibility. With a range of approximately 3,011 km, the CJ2+ delivers consistent, time-saving performance across Europe.

Its low operating costs and proven reliability make it a competitive choice for charter clients who prioritize efficiency, comfort, and flexibility.
