

# Cessna Citation M2

## Light private jet.

The Citation M2 is the ideal business jet for those who want the advantages of flying private without the added complexity of larger aircraft. It is typically chosen by corporate travelers looking to bypass airport queues and maximize productivity between meetings or business visits.

The cabin is configured with five seats, offering passengers a comfortable and spacious environment to relax or work during the flight.

Its compact size allows access to most airports while maintaining onboard comfort and range.
